

Beauty that's more than skin deep

The new 5-blade lightweight carbon fiber propeller for Piper Meridian and M500 pairs next-generation performance and durability with stunning ramp appeal.

- › Designed for increased takeoff, climb, and cruise performance
- › Highly swept airfoil reduces flyover and cabin noise
- › 15 lb weight savings vs. 4-blade metal propeller
- › 10 lb weight savings vs. 5-blade wood core propeller
- › Nickel cobalt lead edge and mesh erosion screen provide unmatched durability
- › Blades certified for unlimited life
